Acme Parental Leave Policy

Effective January 1, 2026, People Operations

Purpose

Acme wants every parent to have time to bond with a new child without worrying about pay. This policy applies to all full-time employees and replaces the parental leave section of earlier handbooks.

Eligibility

Employees are eligible after 90 days of employment. The policy covers the birth of a child, adoption, foster placement and surrogacy, and applies to every parent regardless of gender.

Paid Leave

Eligible employees receive 16 weeks of parental leave at 100 percent of base salary. Leave can be taken in one block or in up to two blocks, and must be used within 12 months of the birth or placement.

Birthing parents may start their leave up to 2 weeks before the due date, and those weeks count toward the 16 weeks. Where local law gives more leave or higher pay, the local law applies.

Requesting Leave

Tell your manager and submit a parental leave request in Workday at least 8 weeks before the planned start date. For adoption or foster placement, submit the request as soon as you know the date. People Operations confirms the request within 3 business days.

During Your Leave

Health, dental and vision coverage, the 401(k) match and the wellness stipend continue during leave. PTO keeps accruing as usual.

Returning to Work

Your role and pay are protected while you are on leave. After returning, you may work a 60 percent schedule at full pay for up to 4 weeks to ease back in. Agree on the schedule with your manager before your leave ends.
